

Drawing Desire Spell

1. STEP ONE, Meditation is always carried out before a spell.
2. After proper meditation, place whatever candles you wish in front of you and begin the drawing.
3. You may use a pencil and paper, but other things are encouraged as well. Markers, pens, just not water colors or anything that will take too long to dry.
4. Draw with power. Invest your self energies and the elemental powers into the drawing. Draw your desire, may it be love, a curse, protection, anything.
5. After you have finished drawing, take a candle with the correct color for the spell and burn the piece of paper after you have folded it up into a package.
6. Put the burning paper on a heat proof surface and watch the flames go out. As it does, the power of the drawing is released and will begin working.
7. Let the candle burn itself out.
8. It is done.
